EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mark L. Weber on 3/6/2007.

The application has been amended as follows:

In the Specification

On page 8, line 7, '814' second occurrence has been replaced with --804--.

In the Claims

Claim 15, line 3, 'the dirt' has been replaced with --dirt--.

Claim 19, line 3, 'the dirt' has been replaced with --dirt--.

Claim 21, line 8, 'predetermine' has been replaced with --predetermined--.

2. The following is an examiner's statement of reasons for allowance: Applicant's arguments with respect to claim 1 about none of the prior art being portable was not persuasive HOWEVER applicant's arguments with respect to the housing element being further limited by being mounted to a handle assembly pivotally connected to a base assembly, the fluid source being mounted to the housing and the liquid recovery system being mounted to the base assembly wherein the handle is pivoted and manipulated to move the base assembly relative to the surface were found to be persuasive. The prior art disclosed large industrial units that are typically driven by an operator and it would not be obvious to one of ordinary skill in the art to

convert such units to a unit having a housing mounted to a handle assembly that is in turn pivotally connected to a base assembly.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
